ABOUT US

Service Disabled Veteran Owned Small Business (SDVOSB)

Foundation in Eliteness

CSP was Founded and Managed by former U.S. Army Special Forces Operators and Elite Law Enforcement Officers.

CSP maintains an extensive network of highly experienced security and training professionals capable of operating in any environment.

The rigors standards of America's Special Forces community serves as CSP's baseline for delivering exceptional services.

Protectors

CSP's protective services professionals have conducted threat-based security consulting, threat analysis and vulnerability assessments of critical infrastructure, fortune-500 corporations and high net-worth persons and their residences. Our group has conducted close protection operations for global clientele including; U.S. and Allied Nation Diplomats, Royals, Forbes Rate High Net-Worth Individuals and "A" List Celebrities.

Trainers

Our training teams have delivered tailored tactical applications and security training programs throughout the globe. Because much of our instructor cadre hail from the U.S. Special Forces community, we understand cross-cultural communications and possess the ability to conduct complex training to indigenous personnel in austere environments.

OUR PROTECTION SERVICES

Estate & Executive Protection

CSP provides property, estate and Executive Protection (EP) services designed to keep you, your family, guest and property safe. We offer 24 hour marked unit patrol and on-site officer protection services (armed and unarmed / uniformed and plain clothes) to address your specific security requirements.

Our team of EP Officers provide discrete, Tier-1 level Close Protection services for U.S. and International clients.

School & Worship Protection

CSP safeguards students, faculty clergy, parishioners and property from internal and external threats. We provide a safe place for learning and worship by employing highly trained and skilled protection operators. We worked in partnership with clients to implement responsive protection services capable of deterring criminal intentions, and if necessary provide an immediate response in emerging situations.

Venue & Event Security

CSP conducts special event venue advance operations and security services for large and small hosted events. Our teams ensure a safe and secure entertainment venue, corporate event or travel destination while reducing client exposure and liability. Covenant Special Projects venue operations serve clients in all aspects of event set-up, coordinations and site security.

Covenant
Special Projects

Secure Transportation

Covenant Special Projects provides secure personnel transportation and sensitive cargo convoy escort services for private individuals, corporate clients and entertainment industry customers. CSP operates throughout the U.S. and Mexico ensuring safe and timely arrival of persons and property. Our Protective Transport Officers are highly trained in secure transport and possess vast experience operating in support of time-sensitive and often dangerous environments. CSP's multi-vehicle protocol and installed real-time automotive emergency tracking devices provide clients peace of mind and assurance knowing their movements are monitored via CSP's U.S. based (24 Hour) reporting and response coordination team.

Services Include:

- Coordination / Safe Route Planning
- Late Model Vehicles (discrete)
- Armored Vehicles (discrete)
- Security Planning
- Escort On-Site (Close Protection)

Threat Assessments

Whether you operate a global Fortune 500 corporation, manage an A-list celebrity or simply remain concerned with individual and residence security, it is important to Understand your risk.

CSP provides client specific Threat and Vulnerability Assessment (TVA) services designed to highlight perceived threats and concerns. We make recommendations to reduce exposure / liabilities and work closely with clients to implement risk mitigation measures to those threats and identified.

Threat and Vulnerability Assessment Services include:

- Security Plans
- Active Shooter response planning and training
- Emergency / Contingency Preparedness Services
- Security System Integration Plans / Policy
- Active Security Post Orders and Special Orders

Security Consulting

CSP's team of security consultants partner with corporations, media groups, venues and security conscious individuals to assist with development and implementation of security and emergency response measures that best protect and manage liability. Our security consulting team's years of experience in supporting USGOV and Private-Sector clients with customized Risk Mitigation Programs means you get a security solution to address your threats, your vulnerabilities, your concerns and your budget.

CSP may consult on:

- Guards and Patrol Services
- Access Control Procedures
- Facility Security Assessments
- Travel Security
- Evaluation of Existing Security
- Emergency Management Plans
- Venue Threat Management
